

Leaf Hunt

Use the space below (and additional paper if needed) to draw the different types of leaves you find. What type of tree does each leaf come from? Label it.

Parts of a Leaf

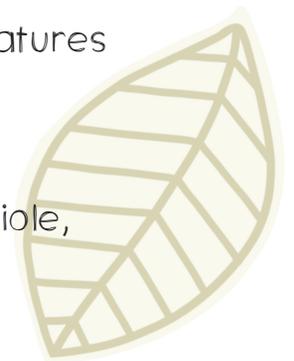

Draw or paste your leaf below.

How would you describe your leaf to someone else?

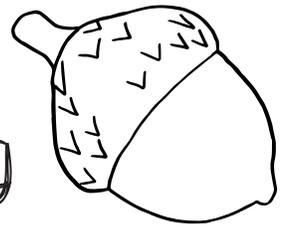

Use a reference guide to help you identify the shape and features of your leaf.

Label the parts of the leaf you found (Blade, Vein, Stem, Petiole, Stipules, Margin)

Seed Graphing

Use the space below to graph the seeds you find.

Describe your graph - what are you measuring? How many seeds, type of seeds, where you found them, etc.

Can you identify the seeds and what tree/plant it belongs to? Use a reference guide if you need it.

Five Senses

Use your five senses as you take a hike or a walk.
Record what you observe using words or pictures.

See

Hear

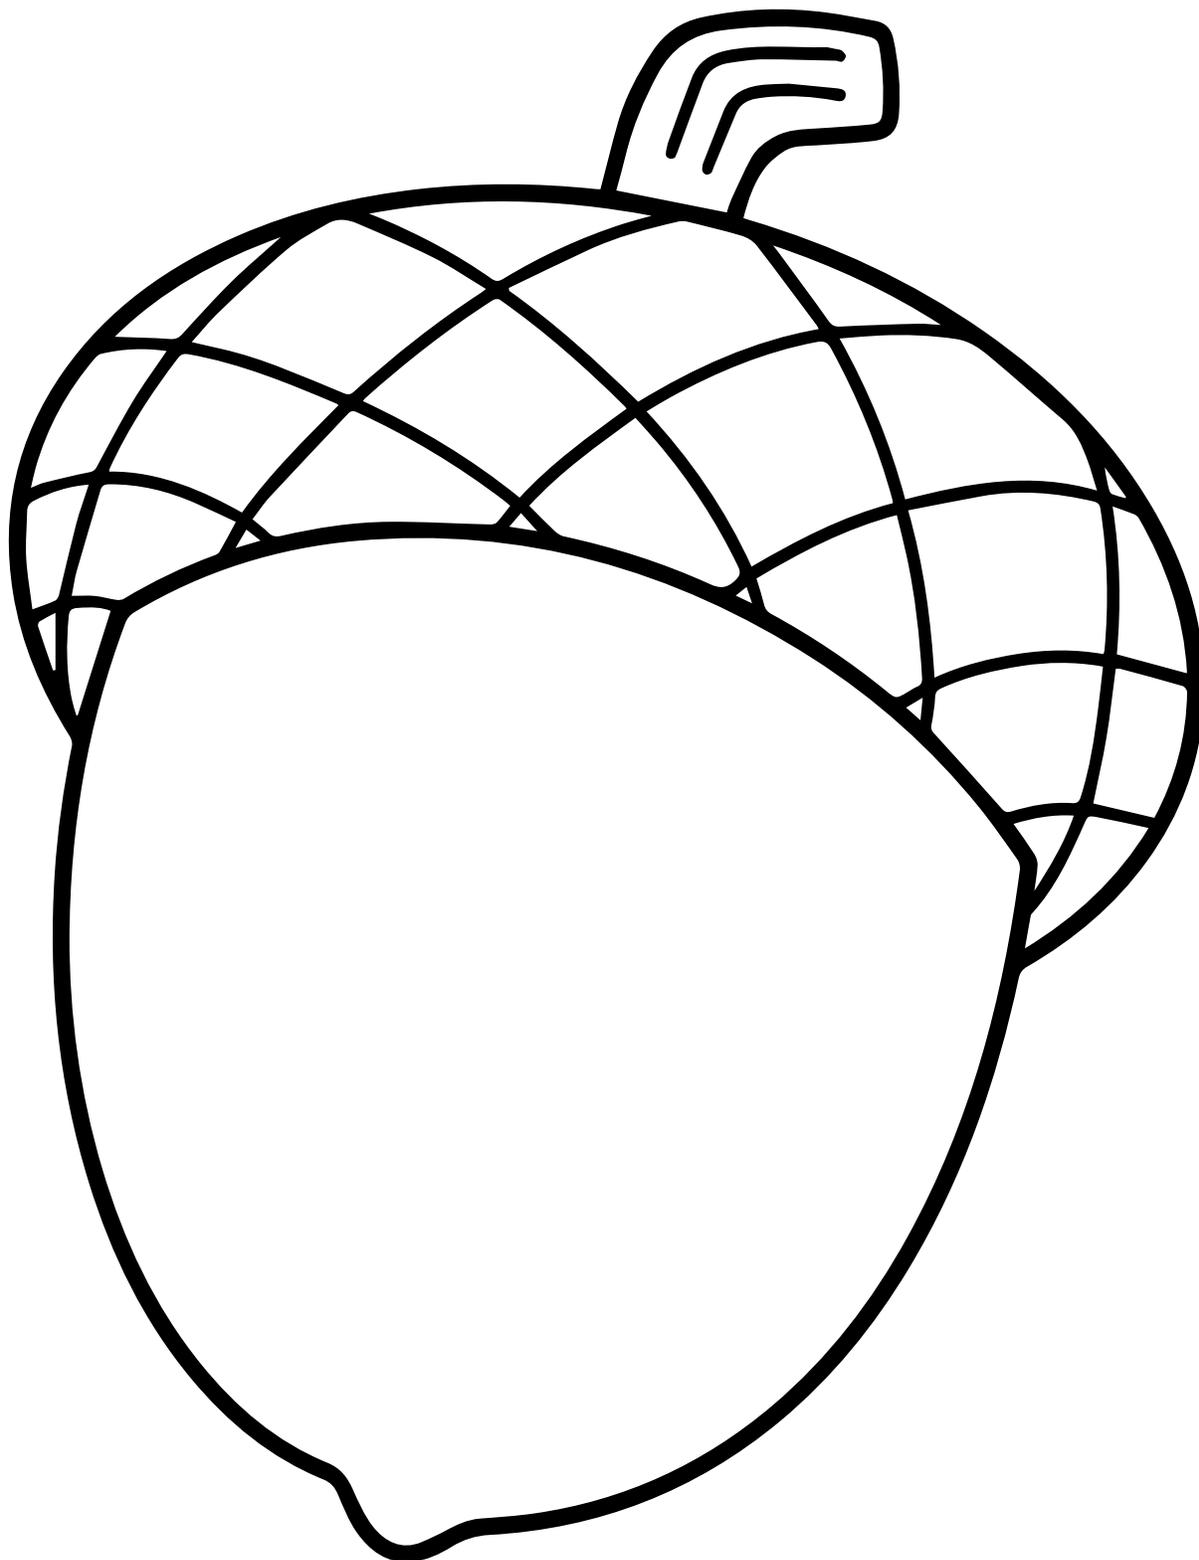

Taste

Touch

Smell

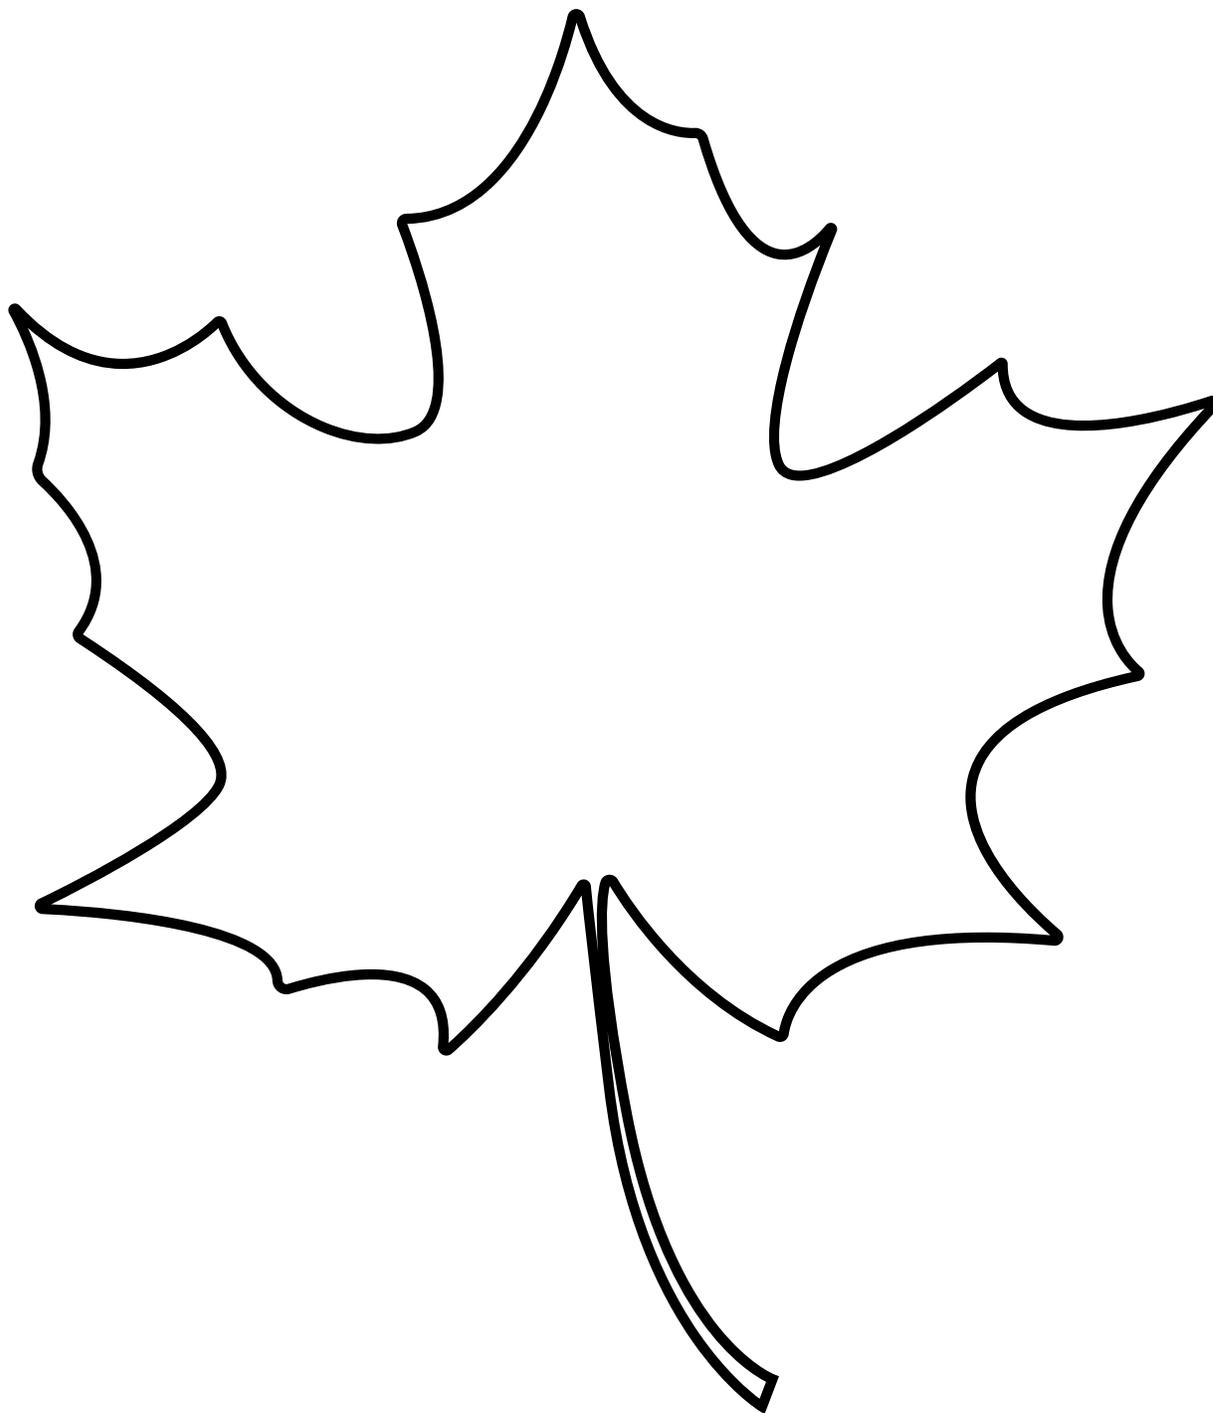

Seed Haiku

Write a haiku poem about seeds, inside a seed! Remember that each line in a haiku is written with a certain number of syllables (5-7-5).

Leaf Poetry

Write a shape poem about leaves - write it in the shape of a leaf! Start with this maple leaf, and then find and trace leaves to create your own shape poems.

Autumn Acrostic

Write an acrostic poem with the word autumn. Each line should begin with a word that starts with one of the letters.
